**Soft Skill Development Facilities**

Practical approach with theoretical knowledge is the necessity to learn any field. Guest lectures enable the students in enriching the latest updates regarding avenues for higher studies and jobs as well as the need of the industry. While handling the real modern life challenges one must need the best academicians with leadership quality and knowledge about soft skills. To extend learning beyond the classroom teaching, we at **HIMT** invite experts from the industry to conduct guest lectures, seminars and workshops. We invite the eminent personalities of various fields and stalwarts of the industry to lend valuable information from their first-hand experience which serves as an ideal platform for the students. At **HIMT**, emphasis is given not only in making the students academically brilliant but successful in all life skills forgetting the pressure of the work. The fascinating lectures on various topics boost the confidence of new aspirants as the lectures end with motivating question and answer sessions. Distinguished guest lecturers speak on various important topics that would prove beneficial for them while choosing the right career paths.

**Interpersonal skills**

- Team spirit
- Social grace
- Business etiquette
- Negotiation skills
- Behavioural traits such as Attitude, Motivation and Time Management.
- Project Development Skills
- Problem Solving skills

## We motivate them to

- Be a part of Team Activities
- Ask family members or close friends to write down your best and worst traits.
- How well do you manage your time?
- Introspect on how you react to feedback.
- How good are you at critiquing?
- Live consciously

## Scheme of Examinations and Syllabus for Bridge Course to Regular MCA 2- year programme With effect from the Session 2020-21

**Programme Specific Outcomes:** The students upon completion of bridge course will be able to:

**PSO1:** To scale up the knowledge and understanding to be able to continue MCA 2-year programme.

**PSO2:** Apply knowledge of computing fundamentals for understanding problems that may be solved using computers.

**PSO3:** Analyze scenarios that require integrated solutions using one or more Programming Languages.

**PSO4:** Create basic computing skills to undertake more specialized courses offering emerging technologies with ease.

**PSO5:** Advance their career in the domain of computer science by acquiring higher order skills.

*Note: It is compulsory for each student to pass out Bridge Course (three additional theory papers and one practical as prescribed in scheme of examination of Bridge Course) as per University norms during the 1<sup>st</sup> year of MCA-2 year course and the degree will be awarded after the completion of Bridge Course. However, these papers under Bridge Course will be taught only in the 1<sup>st</sup> semester of the course.*

## Scheme of Examinations and Syllabus for MCA 2- year programme With effect from the Session 2020-21

### Programme Specific Outcomes:

The students upon completion of Regular **MCA 2-year Programme** will be able:

PSO1 To apply knowledge of computing fundamentals, computing specialization and domain knowledge for the abstraction and conceptualization of computing models from defined problems and requirements.

PSO2 To have the ability to understand and analyze a given real-world problem and propose feasible computing solutions. Also analyze customer requirements, create high level design, implement and document robust and reliable software systems.

PSO3 To transform complex business scenarios and contemporary issues into problems, investigate, understand and propose integrated solutions using emerging technologies.

PSO4 To use the latest technologies like IoT, AI, Machine Learning, Big Data Analytics, Cyber Security and modern hardware and software tools necessary for innovative software solutions and to possess leadership and managerial skills with best professional ethical practices and social concern

PSO5 To master fundamental project management skills, concepts and techniques, set attainable objectives and ensure positive results, meeting scope, time and budget constraints

PSO6 To recognize the need for self-motivation to engage in lifelong learning, the social, professional, cultural and ethical issues involved in the use of computer technology and give them due consideration in developing software systems

PSO7 To assess the need for innovation and initiate the process through entrepreneurship or otherwise and to work collaboratively as a member or leader in multidisciplinary teams

PSO8 To select their career after acquiring necessary eligibility requirement and the skill-set.

## 20. Best Practices adopted, if any

The Institution has been practicing certain useful work culture for the benefit of student community.

- The Institute follows an outcome base education by developing course plans with objectives and outcomes. The learning styles of the students are evaluated through learning style test. Though the college is affiliated M.D.University, Rohtak curriculum gaps are plugged through design based experiments, additional labs other than the curriculum and evaluated systematically through different assessment tools.
- The Institute has formulated Alumni Association to connect with the alumni and utilize their services, like Guest→ Lectures, Internship opportunities, placements, etc., Regular training→ & placement is imparted in the area of communication skill and aptitude to the students to make them employable.
- The Institute has encouraged students to pursue internships during the vacations and acquire necessary→ problem solving skills.
- Students' feedback about teachers' performance and follow-on action implemented
- Parents meet are conducted to take the regular feedback about the progress of their ward and overall development of the college.
- A unique counseling process is followed wherein each faculty is allocated 20 students as a Proctor→ with an objective to constantly follow student progress and accordingly suggest changes in case of any deviation.
- In tutorial classes, students undertake group discussion, problems faced in lectures room, quiz, class test, work exercise, in supervision of a faculty. These measures improve the knowledge in the subject and appropriate planning of any work for achieving the objective.
- Suggestion boxes outside the office of Director, Deans and Heads are placed to have continuous feedback for improvement.
- Every year students along with the garden staff plant trees. Due to this program over the years the campus has become lush and green.
